Juan F. Roldan

67 Hanover Lane B2N 0K1, Truro – Nova Scotia +001 902 986 3692 juanfranrol@icloud.com

I have several years of experience in **software development**. I was assigned non-coding software development roles and stopped programming not many years after starting my career. Since I consider **coding my passion**, I decided to start my coding career from scratch to do something **I 100% love**. I am looking for an opportunity in a coding role. I believe that I have the **plus** of having a business view and knowing what clients expect. I am confident that my desire to advance in my coding career and my professional experience make me an excellent candidate.
